

## Components of Use Case 2

### Interactive statistic graphs with Altair

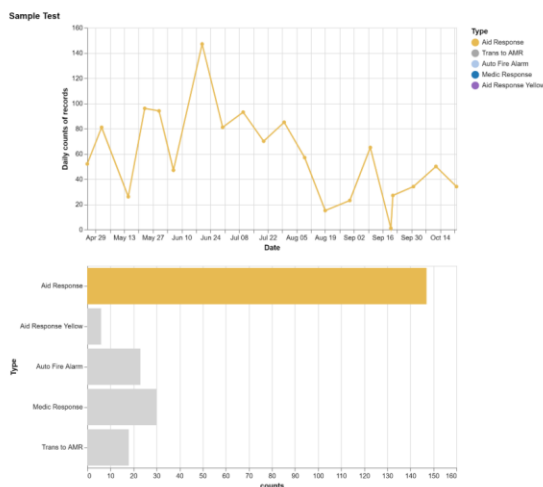

In the sample test, Altair provide:

- trends of different types of 911 calls over dates on the top figure
- Summary of the counts of calls information on the bottom graph

## Components of Use Case 2

### Interactive statistic graphs with Altair

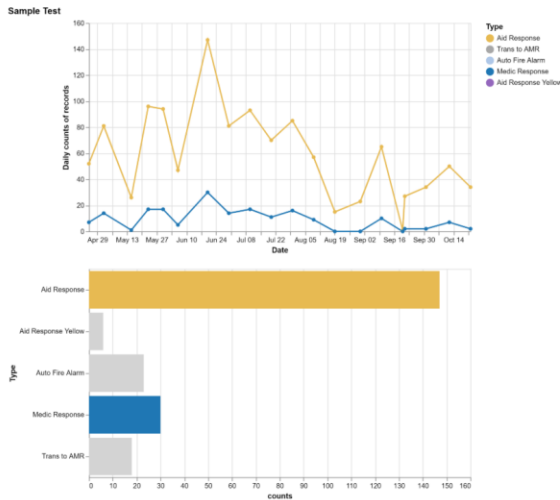

Altair provide such interactions:

- Specifically look at a particular type of 911 calls
- Compare trends of two or more different types of calls to find relationship
- Local counts trends of counts over a period of time (eg. three days, a week etc)

## Components of Use Case 2

### Interactive statistic graphs with Altair

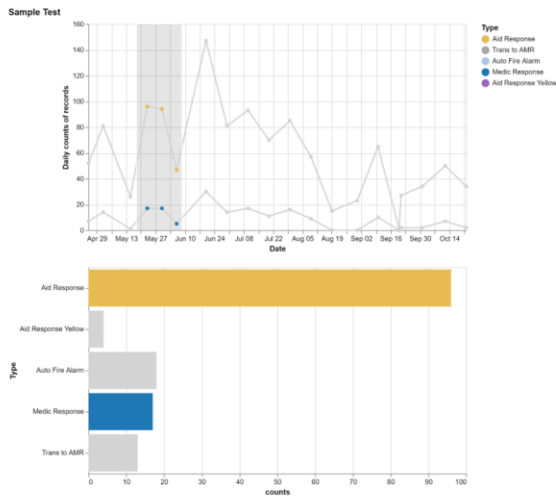

Altair provide such interactions:

- Specifically look at a particular type of 911 calls
- Compare trends of two or more different types of calls to find relationship
- Local counts trends of counts over a period of time (eg. three days, a week etc)
